CRAM	PMP Certification Exam Cram	1	7	\$495

See www.softkeyinc.com/pmu.php for course schedule.

This 1-day session is designed for students who are almost ready to take the PMP certification exam but would like an intense review of the exam content. Students should be thoroughly familiar with the PMBOK® as well as the PMBOK knowledge areas and should have begun studying for the exam. The course covers all of the PMBOK® knowledge areas and focuses on the areas students find most challenging (such as networking and earned value). The course provides a review of the types of questions students should expect on the exam. It is assumed that the student has the experience required to obtain the PMP® designation.
