

| Number | Course Name                           | Days | PDU's | Cost    |
|--------|---------------------------------------|------|-------|---------|
| CSM    | 2-day Scrum Master Certification Prep | 2    | 16    | \$1,495 |

This two-day Scrum Master certification course provides everything you need to begin leading or participating in a Scrum team. At completion, participants are registered for the Certified Scrum Masters (CSM) Test, and receive a two-year membership in the Scrum Alliance, where valuable materials and information are exclusively available. You will learn the essential concepts and tools of Scrum, the differences between agile processes and traditional "waterfall" methodologies, and how to build a roadmap for adopting Agile at your organization. Participants will learn how to lead development teams towards agile operations by managing product backlogs, planning releases and sprints, tracking and reporting progress, and conducting retrospectives. This course is taught by leading Agile practitioners with decades of real-world industry experience at companies ranging from small businesses to the Fortune 100. Exercises, demonstrations, facilitated discussions, case studies, tools, templates and more are interwoven throughout the course to illustrate the principles being taught in a comprehensive fashion interactively tailored to each class's particular needs.

**Topics:**

|                        |                                   |  |
