CPO	2-day Certified Scrum Product Owner (CPO) Course	2	16	\$1,395
-----	--	---	----	---------

This two-day Product Owner certification course provides everything you need to be an effective customer to a Scrum team. On completion, participants are registered as Certified Product Owners (CPOs) and receive a one-year membership in the Scrum Alliance (www.scrumalliance.org). The Scrum Alliance which provides access to valuable materials and information. You will learn the essential concepts and tools of Scrum, differences between agile processes and traditional "waterfall" methodologies, and how your particular role as a business customer will change when interacting with Agile teams. Participants will learn how to effectively manage and prioritize product backlogs, plan releases and sprints, track and report progress, and scale Scrum to program-level efforts. This course is taught by a leading Agile practitioner and trainer with extensive experience as a Product Owner. Exercises, demonstrations, facilitated discussions, case studies, tool and template examples and more are interwoven throughout the course to illustrate the principles being taught in a comprehensive fashion interactively tailored to each class's particular needs.
